## **Attention: Septic Pumping District #1** FINAL NOTICE OF ORDINANCE REQUIRED

Dear Property Owner:

If you have received a postcard from the Straban Township office it is because our records show that you own property that is located within Pumping District 1 and that you have not yet provided the required proof of pumping and inspection as required by Municipal Ordinance Chapter 103 Part 3 Article IV at Section 103.22 et seq.. Land Owners with on-lot septic systems in Pumping District 1 are required to have their systems pumped and inspected by December 31, 2012.

If you believe there is an error in our records please contact the Straban Township office: 717-334-4833

The individual property owner is responsible to make contact and pumping arrangements directly with a Pumper/Hauler registered with Straban Township. The registered Pumper/Haulers are certified to perform the required septic system pumping and inspection. The list of certified Pumper/Haulers and contact information is included with this document. The land owner is responsible for the cost of the system pumping/inspection, and for meeting this requirement by December 31, 2012 (for systems in Pumping District 1). After this pumping/inspection, you will be required to have your septic system pumped and inspected every three years.

As cited in section 103-25.C of the Township Ordinance "The registered pumper/hauler shall provide a fully completed and legible septic system report to the Township within 30 days of the date of pumping. The pumper shall mail or hand deliver the septic system report to the Township municipal building at 1745 Granite Station Road, Gettysburg, PA 17325."

Section 103-34 of the Ordinance States that: "Any person who shall violate or fail to comply with any provision of this article shall, upon conviction thereof by a summary proceeding action brought before a District Justice in the same manner provided for the enforcement of summary offenses under the Pennsylvania Rules of Criminal Procedure, be sentenced to pay a fine of not less than \$100 nor more than \$1,000, plus all court costs, or imprisonment, all pursuant to the purposes and mandate of Act No. 172 of 1996, as amended. Each day's continuance of a violation of this article shall constitute a separate offense." These violations are criminal offenses. We consider each day of violation a new violation subject to a separate penalty.

We strongly suggest that you make every attempt to come into compliance quickly so that your site is not affected by weather conditions that may prevent timely pumping and inspection. This is particularly important as you may receive no further notice and will receive no further extensions of the deadline.

Your prompt attention to this matter is appreciated,

*Straban Township*
