Aug 7, 2021

**PLAYGROUND EXPANSION PROJECT** — Landscaping Architectural Services LLC workers put ground around the outside of a new playground at the Straban Recreation Park on Wednesday. The equipment, for ages 2-5, was cemented in place on Wednesday afternoon and the engineered wood fiber was spread on Thursday. The new construction will increase access for children with limited mobility. There is also new playground equipment for children ages 5-12 that should be finished next week. This project is partially funded through a grant from the Adams County Park, Recreation, and Green Space Program.
